

EXECUTIVE ORDER D-176-51

Relating to Exemptions Under Section 27156 of the California Vehicle Code

Dinan Corporation Dinan High Performance Intercooler

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-14-012;

IT IS ORDERED AND RESOLVED: That the installation of the Dinan High Performance Intercooler, manufactured and marketed by Dinan Corporation, 865 Jarvis Drive, Morgan Hill, California 95037, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for those gasoline powered vehicles listed in Exhibit A, excluding those 2.0L vehicles certified to a Low Emission Vehicle II Super Ultra Low Emission Vehicle (LEV II SULEV) emission standard.

The Dinan High Performance Intercooler consists of either an air to water intercooler or an air to air intercooler, depending on stock application, and are designed to be at least 23 percent larger in volume compared to the stock intercooler. There are no user adjustments for proper installation and no sensors are moved or modified. No changes are made to the ECU calibration with installation. Stock air cleaner housing is not modified with installation.

This Executive Order is valid provided that the installation instructions for the Dinan High Performance Intercooler will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the Dinan High Performance Intercooler as exempt by the California Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Dinan High Performance Intercooler advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

This Executive Order does not constitute any opinion as to the effect the use of the Dinan High Performance Intercooler may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on previously submitted emission test results from Dinan Corporation.

Marketing of the Dinan High Performance Intercooler using any identification other than that shown in this Executive Order or marketing of the Dinan High Performance Intercooler for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE DINAN HIGH PERFORMANCE INTERCOOLER.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 31st day of July 2018.

Annette Hebert, Chief
Emissions Compliance, Automotive Regulations and Science Division

Notes:

1. Single Dinan Intercooler replaces the single stock air-to-air intercooler located in the center lower grille.
2. Dual Dinan Intercoolers replace the dual stock air-to-water intercoolers, one for each cylinder bank.
3. This application excludes engine families certified to the Low Emission Vehicle II Super Ultra Low Emission Vehicle (LEV II SULEV) emission standards:
 - 2016 model year GBMKV02.0N26
 - 2015 model year FBMKV02.0N26
 - 2014 model year FBMKV02.0N26
 - 2013 model year DBMKV02.0N26
 - 2012 model year DBMKV02.0N26
4. On applications with multiple part numbers, Dinan offers kits which fit either the standard bumper fascia, or the optional BMW M Technic bumper fascia.
