

## EXECUTIVE ORDER D-783-5

Relating to Exemptions Under Section 27156  
of the California Vehicle Code

APR LLC  
APR Coil Packs

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That installation of the APR Coil Packs, manufactured and marketed by APR LLC, of 4800 U.S. Highway 280 West, Opelika, Alabama 36801, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the vehicles listed in Exhibit A.

The APR Coil Packs is a coil-on-plug ignition coil that consists of a high-voltage transformer to generate a voltage in order to initiate combustion of the air-fuel mixture. It is designed to increase the ignition output voltage. No modifications to the emission control system are required for installation other than the replacement of the stock ignition coil with the APR Coil Packs.

This Executive Order is valid provided that the installation instructions for the APR Coil Packs will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the APR Coil Packs, as exempted by the California Air Resources Board, that adversely affect the performance of the vehicle's emission control system, shall invalidate this Executive Order.

This Executive Order shall not apply to any APR Coil Packs advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

This Executive Order does not constitute any opinion as to the effect the use of the APR Coil Packs may have on any warranty either expressed or implied by the vehicle manufacturer.

Exemption of the APR Coil Packs shall not be construed as an exemption to sell, offer for sale, or advertise any component of the assembly as individual devices.

This Executive Order is granted based on information supplied by APR LLC, including emissions test data.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE APR COIL PACKS.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this Executive Order. The Executive Order may be revoked only after a ten-day written notice of intention to revoke the Executive Order, in which period the holder of the Executive Order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the Executive Order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

This Executive Order hereby cancels and supersedes Executive Order No. D-783-4, dated September 9, 2020.

Executed on this 9th day of March 2021.

Allen Lyons, Chief  
Emissions Certification and Compliance Division
